DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-7, 9-13 and 15-28 are allowed.
2. The following is an examiner's statement of reasons for allowance: claims 1, 3-7, 9-13 and 15-28 present allowable subject matter over the prior art since the prior art teachings do not teach of a implantable lead adapted to transmit electrical signals, where the lead comprises a helical fixation element extendable and retractable from the distal end of the lead, the distal end comprising coaxial inner and outer header tubes, the inner header tube being electrically conductive material or a low density and metallic material, wherein the inner header tube is substantially transparent fluoroscopically to allow a view of the helical fixation element, and a distal tip collar attached to the distal end of the header tube that comprises a material that is substantially opaque fluoroscopically and electrically conductive. Thus, for the reasons stated above, claims 1, 3-7, 9-13 and 15-28 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bisping (U.S. Patent No. 4,106,512), McArthur (U.S. Patent No. 4,649,938), Peers-Traverton (U.S. Patent No. 4,667,686), Holleman et al. (U.S. Patent
